

# Black Hole Missiles instructions

## step 1

## step 2

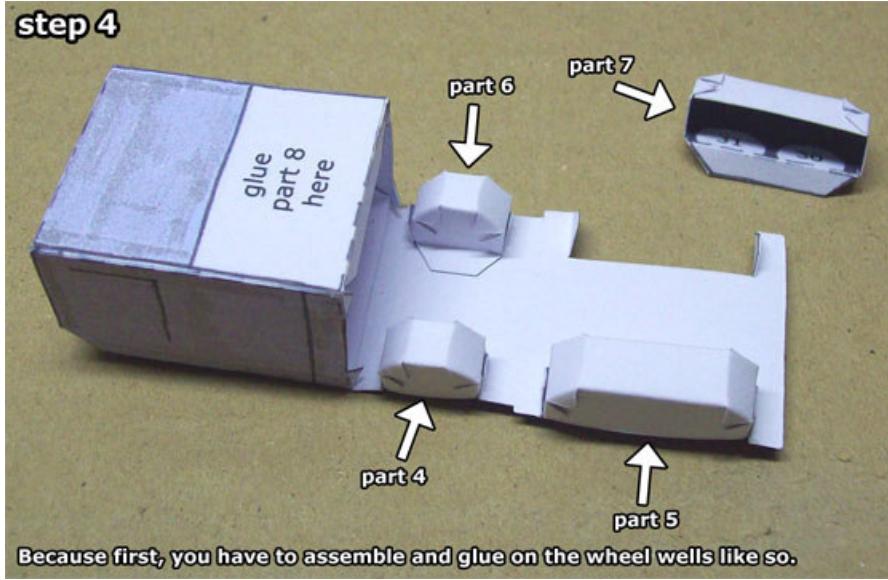

Start by folding part 1. Cut out the hole and glue part 2a to the back, then roll up part 2b and glue it in the hole on the roof of the cab.

## step 3

#### step 4

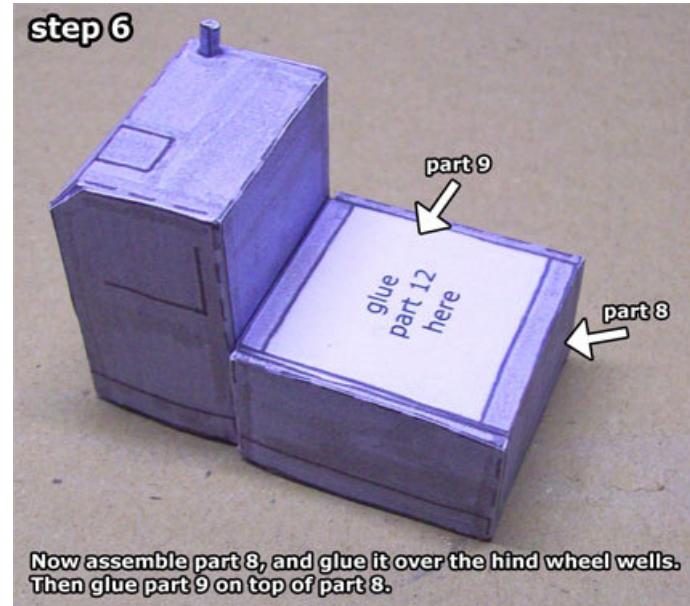

Because first, you have to assemble and glue on the wheel wells like so.

#### step 5

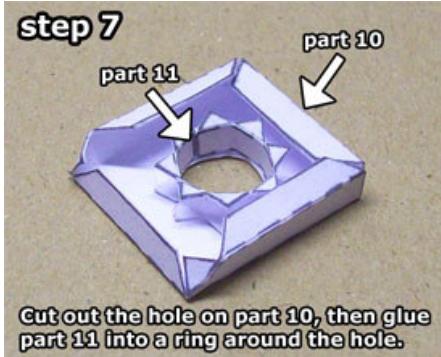

#### step 6

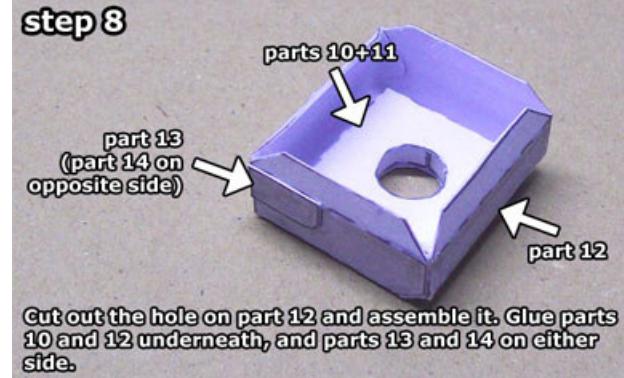

Now assemble part 8, and glue it over the hind wheel wells. Then glue part 9 on top of part 8.

#### step 7

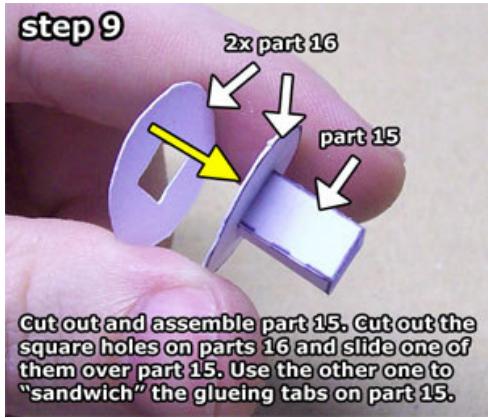

Cut out the hole on part 10, then glue part 11 into a ring around the hole.

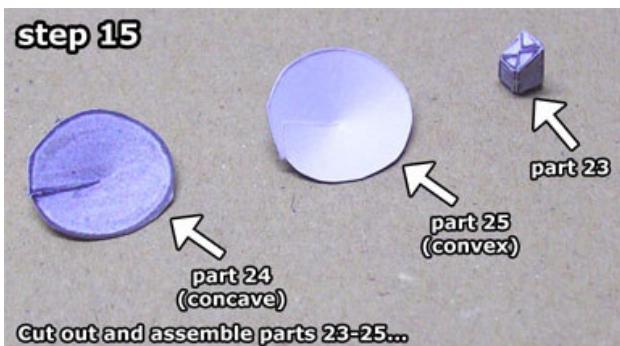

#### step 8

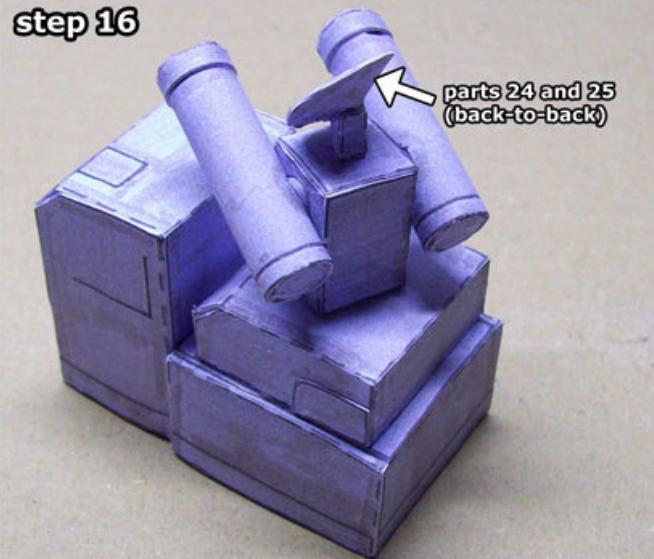

Cut out the hole on part 12 and assemble it. Glue parts 10 and 12 underneath, and parts 13 and 14 on either side.

### step 15

### step 16

### step 17

### step 18
